	Page/Pág.
 Geospatial Services and Information Retrieval	
Tightly Coupled Geospatial Interfaces for Collaborative Systems and Just-in-Time Information Retrieval Agents	3
<i>Arno Sharl</i>	
Matching-concepts: An ontology Approach to Retrieve Geographical Information .	19
<i>Felix Mata and Serguei Levachkine</i>	
Semantic Description of Topological Relations in Spatial Databases	35
<i>Miguel Martinez</i>	
 Geospatial Data Processing	
Using Color Information as a Whole in Imag Segmentation	49
<i>Rodolfo Alvarado Cervantes and Serguei Levachkine</i>	
Conceptual Representation of Digital Elevation Models.....	63
<i>Rolando Quintero and Virginia Villegas</i>	
Compressing Digital Elevation Models based on Run Length Encoding Approach	73
<i>Giovanni Guzman and Rolando Quintero</i>	
 Geospatial Analysis and Its Applications	
Applying Data Mining to Determine Relationships between Relief and Precipitations: A Case of Study In Northern Chile	87
<i>Marco Seron, Pamela Soto, Claudio Meneses, Rodrigo Riquelme and Jorge Quezada</i>	
Deriving Semantic Description Using Conceptual Schemas Embedded into a Geographic Context.....	109
<i>Miguel Torres and Serguei Levachkine</i>	
Spatial Analysis to Generate a Conceptualization of Geometric Properties	121
<i>Karina Verastegui, Marco Moreno-Ibarra and Miguel Torres</i>	
 Author Index	135
