

Editorial

This volume of the journal “Research in Computing Science” contains selected papers related to intelligent systems, optimization and their applications. The papers were carefully chosen by the editorial board on the basis of the at least two reviews by the members of the reviewing committee or additional reviewers. The reviewers took into account the originality, scientific contribution to the field, soundness and technical quality of the papers. It is worth noting that various papers for this volume were rejected.

The volume contains 24 papers, which treat various aspect of modelling using Artificial Intelligence techniques in intelligent systems and optimization.

I would like to thank Mexican Society for Artificial Intelligence (Sociedad Mexicana de Inteligencia Artificial) and COMIA for their support in preparation of this volume.

The entire submission, reviewing, and selection process, as well as preparation of the proceedings, were supported for free by the EasyChair system (www.easychair.org).
